Welcome letter

Dear partners and colleagues!

If you are faced with the task of equipping a sporting venue of any complexity (from a school sports ground to an Olympic stadium) or you need to buy reliable sports equipment, our company will be glad to help you!

AVK GmbH has been operating in complex equipping of sports facilities all over the world for more than 8 years. Up to the present day more than 100 full-size sports facilities were equipped by AVK GmbH. Among these objects there are both sports venues that host important international competitions (world and european championships and cups, Olympic games, Universiades, European games and national championships) and mass sport venues: school sport halls, swimming pools and fitness clubs.

We represent over 50 well-known brands that are official partners of various international sports federations and the International Olympic Committee.

All the equipment supplied by AVK GmbH fully complies with the international competitions rules and meets all the respective federations requirements. We guarantee our customer certification by international sports organizations of all sports facilities equipped by our company.

With best regards and looking forward to a fruitful cooperation,

*AVK GmbH CEO
Alexander Kraft*

Geography of our projects

We are proud of our team. It's a tower of strength, a cohesive group of people, united by the same interests and goals – to increase greatly the success of AVK GmbH. There are specialists with unique competences collected in our team including professionals with more than 20 years of experience in the industry of sports equipment. Besides among our employees there are professional coaches and athletes. In tense moments these people prove themselves: they show total dedication, commitment on results and expert knowledge. With such partners you can safely go on the war-path and achieve goals".

"AVK GmbH began its activity from the CIS market where it quickly proved its professionalism. We participated in preparation of such important sporting events as the Universiade and the Olympic Games in Russia, the Universiade in Kazakhstan, the European Games in Azerbaijan. Currently we continue to target the CIS market. For example, we participate in the global programme on providing schools in Kazakhstan with sports equipment and development of sport and fitness complexes across Kyrgyzstan. But we do not rest on our laurels, in the last few years we have been actively working in other countries such as Montenegro, Austria and Switzerland. Very soon the geography of AVK GmbH projects will expand. We actively communicate with potential partners from Australia, the UK and Iran. We are opened for partnership with companies worldwide".

About AVK GmbH in one picture

Equipment for what sports do we supply?

What services do we offer?

AVK
Sports equipment

"The activities of our company can be characterized with the word "complexity". If the customer involves us in equipping of a sports facility he does not need to organize himself selection of equipment in accordance with the rules of sports federations, delivery of equipment, installation and setup. All these works will be professionally done by our company. We supply and install all types of equipment that may be needed in equipping a sports facility, from a cloak-room ticket with your company's logo to the most complex timing systems".

AVK GmbH head of IT department

"Task solution of equipping the highest level venues is not just a beautiful phrase. Nowadays equipping of the Olympic, world and european championships venues that host competitions in various sports is in fact a common task that engineers and managers of AVK GmbH carry out in 100% of cases in time and without quality loss. In addition to the level of complexity we keep up with the times and provide our facilities with up-to-date equipment. It is proven by complex objects among which are rowing channels, modern swimming pools-transformers, bobsleigh tracks".

(equipment for fitness centers and schools)

Our services

We are ready to provide you a range of services including consultations on development of a project, supply, installation and maintenance of sports and technological equipment at sports facilities of any level. If you work with AVK GmbH you won't need to interact with a large number of suppliers, logistic and insurance companies, installation teams, service companies. Cooperation with AVK GmbH will save your time and effort.

Equipment selection

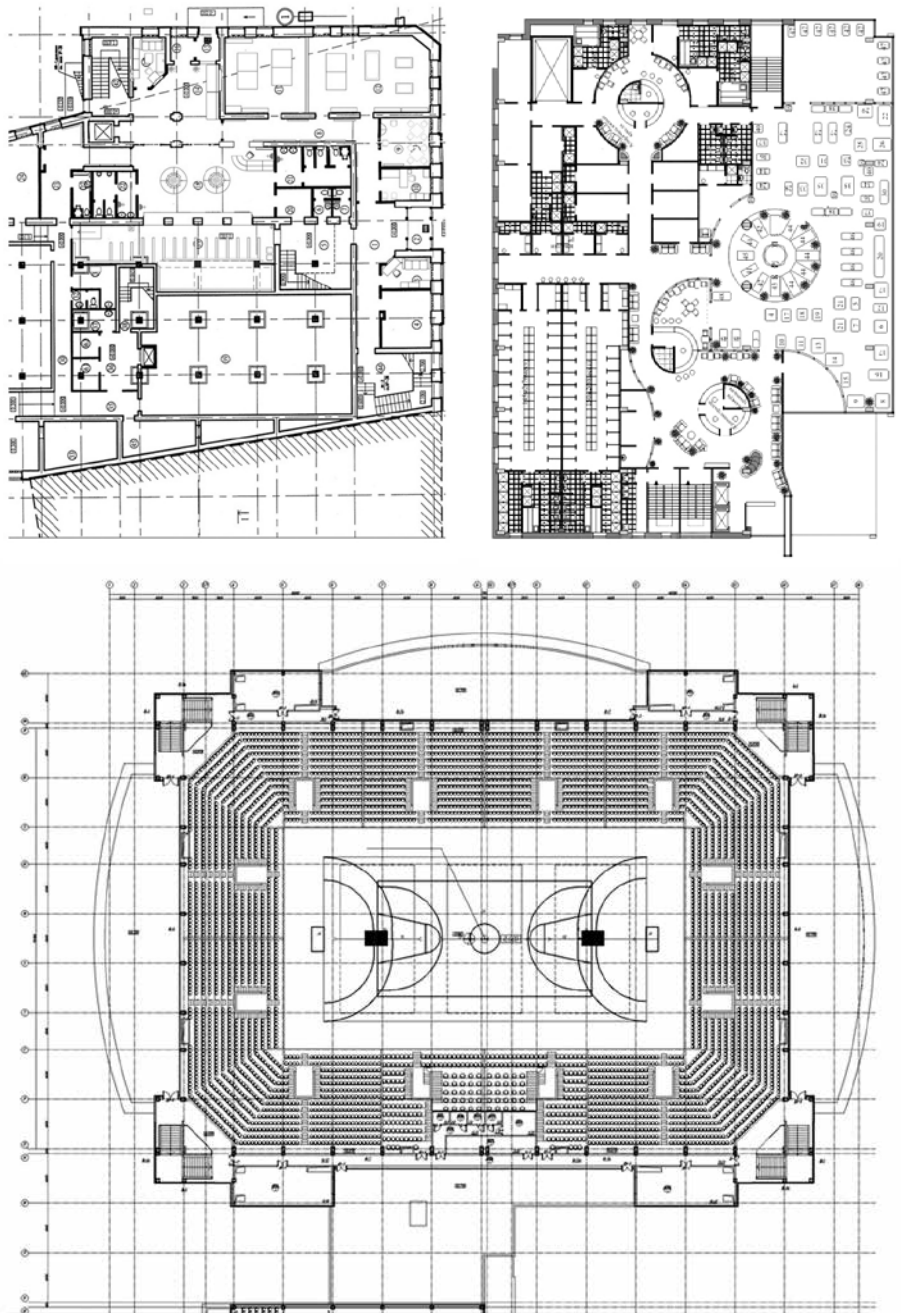

Specialists of AVK GmbH select and place sports equipment on the site plan, then prepare specifications and price lists.

During the work the designers of AVK GmbH are guided by the following principles:

- Applicable rules and regulations of sports competitions;
- Requirements of international sports federations;
- Location of necessary rooms/areas for training and competition;
- Compliance of construction project to declared objectives.

A strong focus is put on essential human needs like comfort, safety, rationality and ergonomics.

The specific choice of equipment for a certain facility is determined by its status and the technical features and the set budget. Specialists of the company find optimal solutions that meet the above criteria.

Library photo of AVK GmbH

Insurance and delivery

AVK GmbH cooperates with leading time-proved insurance and shipping companies that ensure reliability, efficiency and security of logistics operations.

All deliveries of our company's equipment are supplied with a full set of transport and technical documents, certificates, passports and user manuals.

Cooperation with our company in this area is convenient, safe and profitable.

More detailed about our services

Installation work

Our professional team installs sports equipment onsite, lays floorings, installs, starts up and adjusts video-screens, complex electronic systems and related structures.

At each facility specialists of AVK GmbH train the customer or his representatives how to operate the delivered equipment. During the training the operating personnel is acquainted with the instruction manuals for the equipment.

Maintenance service

All delivered equipment is covered by warranty. After the guarantee period is expired a service contract for maintenance and support service can be concluded with AVK GmbH.

Library photo of AVK GmbH

"Experience and knowledge of the AVK GmbH specialists enable us not only to fulfill contractual obligations, but also to assist the Customer in resolving different construction shortcomings (e.g., lack of construction readiness of a particular structure) which sometimes must be eliminated as quickly as possible. Such situations occur quite often and AVK GmbH always provides all possible assistance to its partners even if the issue is not its work task competency"

Water sports

Professional equipment for competitions and training certified by FINA and LEN for water sports: swimming, diving, water polo and artistic swimming; equipment for water fitness and water entertainment.

Technical equipment for swimming pools:

- ① Mobile bulkheads for swimming pools
- ② Starting platforms
- ③ Storage reels for dividing lanes
- ④ False start detection systems and backstroke flags, ladders
- ⑤ Underwater vacuum cleaners
- ⑥ On-water safety video systems
- ⑦ Specialized plastic furniture for the pool area, equipment storage
- ⑧ Anti-slip floor covering for swimming pool bypass
- ⑨ Equipment for water aeration below the diving platforms
- ⑩ Movable pool floors

Professional equipment for swimming and diving certified by FINA and LEN:

- ① Starting blocks
- ② Dividing lanes
- ③ Touchpads and turning panels
- ④ Diving boards
- ⑤ Training equipment and accessories for swimming and diving (stopwatches and training clocks, medicine balls, fins, weights, floats and others)
- ⑥ Specialized training machines for swimmers

The Aquatic Palace, Baku (Azerbaijan)

The Aquatic Palace is an iconic sporting venue of Azerbaijan and fully compliant with the requirements of the International Swimming Federation.

The Aquatic Palace has three swimming pools. One pool is an Olympic-size swimming pool and was designed for different types of competitions at local and international levels. The pool for diving has a five-stage platform for high board diving from a height of 3, 5, 7,5 and 10 meters. 6,000 spectators can watch sports competitions in the palace.

AVK GmbH supplied complex equipment for the Aquatic Palace: equipment for swimming, diving, artistic swimming and water polo as part of preparation for the European Games 2015 in Baku.

Water sports

Professional equipment for water polo certified by FINA and LEN:

- ① Goals and field markings
- ② Catwalks
- ③ Accessories for water polo (balls, swimming caps and others)

Complex acoustics solutions for artistic swimming.

Training equipment and accessories for water fitness and aquaparks:

- ① Attractions for aquaparks
- ② Grips and barbells
- ③ Equipment for leisure (deck chairs, benches)
- ④ Equipment for aquafitness
- ⑤ Storage racks for accessories
- ⑥ Emergency equipment
- ⑦ Water and underwater games (basketball, volleyball, water polo)

The Aquatic Palace, Kazan (Russia)

The Aquatic Palace is one of the biggest sports facilities in Russia, built for the Universiade 2013 in Kazan.

The Aquatic Palace has one peculiarity, it is the movable floor installed in the swimming pool for diving and in the swimming pool for competitions. The technology enables to change the depth of the swimming pool depending on the event. Besides the pool for competition is provided with a mobile bulkhead that enables dividing the pool into two parts of 25 meters each.

The tribunes of the Aquatic Palace can receive up to 4185 spectators.

AVK GmbH experience

Library photo of AVK GmbH

Library photo of AVK GmbH

AVK GmbH supplied equipment for swimming, water polo and diving.

Team sports

Professional equipment for competitions and training certified by international federations for team sports: basketball, volleyball, handball, football and beach sports.

Professional equipment for basketball certified by FIBA:

- ① Mobile basketball backstops
- ② Wall-mounted and roof-mounted basketball backstops

Rowing and canoe

Automatic Start System and the Lane Marking System (Albano) for rowing and canoe:

Albano system

Albano system is a buoy system which was first used on lake Albano in Italy. It utilizes longitudinal wires for the marking of the rowing or canoeing race course lanes and has become universally used over the years. The Lane Marking System includes the COS (Change Over System), which makes it possible to convert the race course between rowing and canoe-kayak arrangements in a matter of hours. The system has been certified by FISA and ICF as their choice for world-class races.

Automatic Start System

The system has been certified by FISA and ICF as their choice for world-class races. Our Starting System is constructed from high quality, heavy-duty components, which make it resistant from stormy wind and extreme waves. The System can be assembled quickly and transported on a trailer.

“Center for rowing sports” on the lake Sredni Kaban, Kazan (Russia)

“Center for rowing sports” on the lake Sredny Kaban is the most modern and one of a few rowing complexes in Russia, it is one of the venues of the Universiade 2013 and 2015 water sports World Championship. The complex is designed in accordance with international standards for competitions on rowing sports.

AVK GmbH experience
